

# Elevate Your Tech Career with Balcas

Are you a tech enthusiast looking to make a real impact? Balcas is on the hunt for an ambitious I.T. Support Technician to join our innovative team! This is your chance to dive into a role where your skills will be at the forefront of our multi-site operations, tackling diverse tech challenges and contributing to exciting I.T. projects.

## Why Join Balcas?

### Be Part of an Innovative Team

At Balcas, we pride ourselves on fostering a collaborative environment where creativity and innovation thrive. Our team is dedicated to pushing the boundaries of technology, and we're looking for someone who shares our passion for excellence.

### Diverse Tech Challenges

As an I.T. Support Technician, you will encounter a variety of tech challenges that will keep you on your toes. From troubleshooting hardware issues to implementing software solutions, your day-to-day tasks will be varied and interesting. This role is perfect for someone who loves solving complex problems and is always eager to learn more.

## Exciting I.T. Projects

Your role won't just be about fixing problems; you'll also have the opportunity to work on exciting I.T. projects that drive our business forward. Whether it's upgrading our network infrastructure or rolling out new systems, your contributions will be vital to our success.

## The Role

You'll be based in our Enniskillen office, working Monday to Friday from 8.00 am to 5.00 pm. Your responsibilities will include:

- Providing essential support for our multi-site operations.
- Tackling a wide range of technical issues.
- Contributing to and leading various I.T. projects.

This role is designed for someone who is not only technically proficient but also ready to take initiative and make a significant impact.

## How to Apply

Ready to elevate your tech career? Visit [www.balcas.com/careers](http://www.balcas.com/careers) for more information or to apply online by 4pm, Tuesday 23rd July, 2024

Join us at Balcas and be part of a team where your skills and passion for technology can truly shine!
